This Scheme offers funding and work experience placements to address skills shortages and gaps within the traditional building crafts sector.

Trainees will develop existing skills or improve their knowledge and experience of conservation and repair of historic buildings, structures and sites. Skills offered will include:

- blacksmithing
- ironwork
- brick masonry
- lime mortar
- lime plaster
- carpentry and joinery
- electrical and plumbing
- painting and decorating
- dry stone walling
- stone conservation
- earth building
- roofing
- fibrous plastering
- wheelwrighting
- flint working
